

SIZE CHARTS *RISC IMPACT PROTECTION*

All our jackets and suits are prepared for a back protector, and some also for our unique chest protector. Hip protectors might be included with your pants or suit and are otherwise separately available. This file tells you which size fits your garment.

If you can't find your garment in this file, there are two possible reasons. It was either released before 2012 — which means it's time for a new garment — or after 2023, in which case Medium size is for women and Large is for men.

This file only refers to our [RISC protectors](#) and not to brands other than our own. Scan the QR-code and (re)discover the benefits of our in-house developed impact protection.
